

JOSE VALLE

Program / Project Manager

jose@thevalleteam.com | (650) 218-0310 | linkedin.com/in/realestatejose | Bay Area, CA

Program Manager with 10+ years of cross-functional leadership delivering complex programs across enterprise technology deployments, commercial operations, and municipal services. Drives readiness from planning through go-live by connecting interdependent workstreams, managing detailed schedules and deliverables, surfacing risks and trade-offs, and keeping stakeholders aligned to business priorities. Experienced influencing across engineering, vendors, field operations, customers, and executive leadership in highly matrixed environments.

AREAS OF FOCUS

Readiness & Planning	Launch / go-live readiness, integrated program planning, milestones & deliverables
Cross-Functional Leadership	Workstream leadership, executive & partner communications, vendor management
Risk & Change	Risk mitigation & contingency planning, change & scope management, technical documentation
Business & Customer	Customer experience focus, data-driven decision making, process improvement

PROGRAM METHODS & SYSTEMS

Integrated Execution Schedules • Plan of Record • Risk & Blocker Analysis • Mitigation Actions • RFIs • Change Orders • Logs • Closeout Documentation • SCADA • LUCITY

EXPERIENCE

Project Manager

GC Security Design, Inc. — 2023–Present

- Serve as the central program point connecting design, engineering, field operations, vendors, customers, and executive stakeholders across nationwide enterprise technology deployments, maintaining alignment from planning through go-live.
- Build and manage integrated execution schedules across concurrent workstreams, coordinating milestones, dependencies, scope changes, standards, and deliverables to keep teams aligned to the plan of record.
- Lead weekly Owner-Architect-Contractor (OAC) and cross-functional planning reviews, translating project status, risks, decisions, and financial impacts into clear actions.
- Analyze emerging delivery risks and blockers, coordinate mitigation actions and contingency responses, and escalate decisions when schedule, scope, budget, compliance, or customer experience are at risk.
- **Reduced project delays 20%** by redesigning scheduling workflows and strengthening subcontractor coordination.

Real Estate Agent — Commercial & Residential

Compass — 2015–2023

- Managed a portfolio exceeding **\$60M** in property value across time-sensitive transactions, marketing programs, and property-readiness initiatives.
- Directed digital and online marketing execution across listings, campaigns, and buyer-facing content, coordinating timelines, approvals, positioning, and launch readiness.

- Used market and performance data to guide decisions, contributing to a **15% reduction** in commercial vacancy rates.
- Negotiated and closed 5–10 year commercial leases for corporate clients.

Public Works Leader

Town of Hillsborough — 2001–2015

- Led municipal field teams across infrastructure inspections, maintenance operations, and capital improvement work.
- Tracked and reported system performance data using SCADA and LUCITY.
- Spearheaded workflow improvements that **cut average service response times 10%**.
- Served as liaison between field crews and administrative leadership, translating technical challenges and operational risks into actionable plans.

EDUCATION & LICENSES

Associate of Fire Science — College of San Mateo, 2008

California Real Estate Salesperson License #01976487 — 2015–present
